

# ConServ Refrigerators and Freezers

ConServ Refrigerators and Freezers offer super energy efficient, CFC free operation in a uniquely designed package. Each unit is built with all recyclable parts by the largest manufacturer of refrigerators and freezers in Scandinavia – ISO certified Vestfrost.

The *ConServ 375 Refrigerator*, designed by internationally acclaimed B&O artist David Lewis, is a beautiful addition to any kitchen. The fresh food section is located at “waist to eye” level, with the freezer compartment on the bottom. The condenser and cooling tubes are built into the walls of the unit, with the back sealed to keep dust out of working parts. This “sealed” design allows for quiet and ultra efficient operation.

The *ConServ SE 215 Chest Freezer* offers 7.5 cubic feet of compartment space at an average cost of only .54 Kwh of electricity per day – far less than the average chest freezer. It even features a childproof lock and temperature control dial.

**ConServ**

## ConServ 375 Refrigerator Features

- Built-in condenser for lower energy consumption
- CFC Free refrigerant and foam
- Separate compressor for fridge and freezer
- Left or right hand door opening
- Attractive European styling
- 1-year warranty

## ConServ 375 Refrigerator Specifications

- Net Capacity (Refrigerator): 7.1 cu. ft. (200.0 L)
- Net Capacity (Freezer): 3.4 cu. ft. (96.0 L)
- Height: 78.7 in. (200.0 cm)
- Width: 23.6 in. (60.0 cm)
- Depth (excluding handle): 23.4 in. (59.5 cm)
- Freezing Capacity (24 hrs): 39.5 lbs. (17.0 kg)
- Compressor (Refrigerator): Surge - 14.5 A; Run - 1.0 A
- Compressor (Freezer): Surge - 16.0 A; Run - 1.5 A
- Electric Consumption (24 hrs):  
68°F (20°C) - .70 Kwh; 77°F (25°C) - .90 Kwh; 90°F (32°C) - 1.5 Kwh
- Standard Voltage: 120V, 60 Hz

## ConServ SE 215 Freezer Features

- Counterbalanced PVC laminated steel lid
- CFC Free refrigerant and foam
- Defrost water drainhole
- Built-in control panel on front of unit
- Aluminum liner
- 1-year warranty

## ConServ SE 215 Freezer Specifications

- Gross Capacity: 7.55 cu. ft. (213.0 L)
- Net Capacity: 7.3 cu. ft. (206.0 L)
- Height: 33.5 in. (850.0 cm)
- Width: 44.4 in. (1125.0 cm)
- Depth (excluding handle): 26.6 in. (650.0 cm)
- Freezing Capacity (24 hrs): 67.0 lbs. (30.0 kg)
- Compressor: Surge - 22.6 A; Run - 2.0 A
- Hours from -18°C to -9°C: 54.0
- Power Consumption (24 hrs.) @ 77°F (25°C): .54 Kwh
- Standard Voltage: 120V, 60 Hz
